SUPPLEMENTAL AMENDMENT

Commissioner for Patents
Washington, DC 20231

Sir:

The following Amendment is supplemental to Applicant's response to the Office Action mailed 16 April 2001. Since Applicant's response filed 16 August 2001 is considered responsive to the Office Action, no fee is considered due upon entry of this Supplemental Amendment.

Accordingly, entry of this Supplemental Amendment is respectfully solicited.

IN THE SPECIFICATION:

Please amend the specification as follows.

Please add the following material to page 6 and after the first full paragraph, which ends on-line 17.

B
-- In an aspect of the invention, the glucose sensor comprises an electrically insulating base plate, an electrode system including at least a working electrode and a counter electrode formed on said base plate, and a reaction layer which is formed in contact with or in the vicinity of said electrode system. The reaction layer contains: at least one stabilizer selected from the
